

Monu-Mate™

MEMORIAL FLOWER VASE HOLDERS

The perfect addition to your loved one's memorial.

320-524-2457

Monu-Mate Memorial Flower Holders are the perfect complement to your loved one's memorial. The attractive antique copper or antique silver holder will enhance the beauty of most any type of gravestone.

Monu-Mate holders and vases are adaptable to most types of headstones and are available in two basic styles, side mount and base mount.

The side mount comes in two sizes, to accommodate 6 or 8 inch stone widths, as used in many monuments. The side mount is easy to install by tightening two stainless steel bolts, which have protective plastic tips, so they may be tightened with very little possibility of damaging the stone. A stabilizing plate keeps the holder securely in position.

The base mount is also simple to install, just by inserting the lower angle into the ground at the edge of the marker. It was designed with an angle bracket that supports the flower container above the stone for ease of mowing without moving the holder.
